

REMARKS

Claims 7-10 remain herein.

The Specification is amended herein to delete, without prejudice, the portion of the specification referring to the “weight” percentage of non-coordinating monoazo compound contaminant in applicants’ monoazo metals-compound. This Amendment renders moot the Advisory Action’s objection to the Declaration Under 37 CFR 1.132 filed August 8, 2007, as well as previous objections to both the as-filed and amended portions of the specification describing the “weight” percentage of non-coordinating monoazo compound contaminant in applicants’ monoazo metals-compound. See, for example, November 13, 2006 Office Action, page 2 (objecting to the passage for “failing to identify the basis of the percentages”); May 11, 2007 Office Action, pages 2-3 (objecting to the February 13, 2007 Amendment specifying that the described percentage is a “weight” percentage as allegedly introducing new matter).

For the foregoing reasons and the reasons submitted in the Amendment dated August 8, 2007, all claims 7-10 are now fully in condition for allowance, which is respectfully requested. The PTO is hereby authorized to charge/credit any fee deficiencies or overpayments to Deposit Account No. 19-4293. Should the Examiner feel that further amendments would place this application in even better condition for issue, the Examiner is invited to call applicants’ undersigned attorney at the number listed below.

Serial No.: 10/507,299

Respectfully submitted,

STEPTOE & JOHNSON LLP
